We have 4 lines for Vet-Check that you will use.

Please be there latest 5 min and not earlier than 10 minutes before your schedule. This should help to avoid congestions.

Once this is passed and if required, you will go to FCI Measurement.

Teamleader should control their order and send dogs in such a way that there is minimum delay at the Vet-Check and Measurement.

Our local support will help you with this.

Late arrivals will go at the end.
